

It's Easy to Switch!

At Planters Bank, we believe in convenience, and we are taking the hassle out of switching bank accounts. Please follow these step by step instructions so you can enjoy your new Planters Bank checking account.

1. Explore our checking accounts with one of our Customer Service Representatives or by visiting our checking account page ([link to personal accounts](#)). When you are ready to open an account, our CSRs will be happy to assist you. All of our checking accounts can be opened with a minimum balance of \$50.
2. After opening your account, please fill out a Direct Deposit Routing Form that includes your new account information. Give this form to your employer, or anyone else who makes direct deposits into your account, so you will be sure to receive your deposits.
3. Using your most recent bank statement from your previous checking account, make a list of any businesses you have authorized to debit your account or debit card. Please send the Automatic Payments Routing Form to each business that is debiting funds from your account. In addition, please contact companies that are debiting through your debit card, as they will need to change your card number as well.
4. We want to make it easy for you to bank with us! Be sure to sign up for our convenient Mobile and Online Banking options. ([links to mobile and online banking options](#))
5. When you have received direct deposits into your new account and are confident that there are no outstanding checks or automatic debits that need to clear your previous account, you may use the Account Closure Form to close your account at your previous institution. Please be sure to close your previous account to avoid any inactivity fees. Thank you for choosing Planters Bank for your new checking account!
